

Assistance with Dutch for children of non-Dutch speakers

I offer Dutch language support for children who do not yet speak or understand Dutch well. Lessons are available in Purmerend, Amsterdam, Edam, Volendam, Monnickendam, and Zaandam.

My teaching approach is adapted to the age, needs, and abilities of each child.

For young children (up to around 5 years old), the focus is mainly on listening, reading aloud, and learning vocabulary through spoken language, since formal reading instruction has not yet started at school.

For older children, I focus on understanding, pronunciation, and writing. From approximately grade 4 onwards, we also work on reading comprehension. We read stories together or individually and discuss them afterwards with questions to check understanding. If needed, explanations are provided. There is always time for conversation at the end of each lesson.

Lesson format

- Individual lessons at home only
- No location-based group lessons available (fully booked for 2026)
- Volunteer/free lessons are also fully booked for 2026 and only available in exceptional cases by invitation

Lesson times

Lessons are scheduled by appointment and take place after school on weekdays. Weekend lessons are possible with a €5 surcharge per lesson/hour.

Prices

€10.00 per hour (all materials included)
